

## Press Release

August 2011

RENEX ECO 2011 press release:

**Istanbul/Hannover** RENEX ECO – exhibition for renewable energy, energy efficiency and insulation will again be the meeting point of the market players 20-23 October 2011 in Istanbul Expo Center. After the remarkable success of its second edition, RENEX ECO 2011 is again ready to host national and international exhibitors from renewable energy industry, among which many key players also take place. Last year's exhibition covered 197 stands representing 241 company's products on 12.000 m2 exhibition area. 15.426 professional visitors including 955 international visitors used the four days for meeting and networking with the participants.

### **Strong international participation**

The potential of the sector and the business opportunities for international companies will be reflected in the high level of participation from abroad. Currently International direct exhibitors from Germany, Japan, USA, Austria and several federal states of Germany confirmed their participation. States of Germany Baden-Württemberg, Berlin/Brandenburg and Bremen/Lower Saxony, Nordrhein Westfalen will participate with state pavilions; Austria and China are also expected to take place at RENEX ECO 2011 with pavilions. International Pavilion will again offer a platform for exhibitors from different nationalities.

### **Financial support to the exhibitors of the fair**

As being one of the most important renewable energy shows in the Eurasian Region, RENEX ECO is officially supported by some states and governments as well. Small & Medium Enterprises Development Organization (KOSGEB) supports Turkish exhibitors of RENEX ECO financially and some special state pavilions like Baden-Württemberg, Berlin/Brandenburg and Bremen/Lower Saxony, Nordrhein Westfalen are supported by their states as well.

### **6th Turkish-German Energy Symposium will be held parallel to the fair**

After the successful cooperation during RENEX ECO 2010, Turkish-German Energy Symposium will be organized in cooperation with German-Turkish Chamber of Industry and Commerce concurrently with RENEX ECO again. This year's symposium will highlight the latest developments

### **Detailed information about displayed products & Services: Company Presentations**

The exhibitors of RENEX ECO will have the opportunity to give more information about their products and services through presentations in the special forum area, besides just displaying them at their stands.

### **The Turkish Parliament has approved a new legislation for Renewable Energy.**

At the end of December 2010 the Turkey's Parliament announced a change in the legislation for renewable energy resources market in Turkey. The new legislation regulates the volume of energy the state allows to buy and determinates new feed-in-tariffs for the different kinds of renewable energy resources.

Organized by Hannover-Messe Sodeks Fuarcililik A.S. and Deutsche Messe AG/Hannover/Germany RENEX ECO will take place from 20-23 October 2011 at Istanbul Expo Center / CNR Expo in Istanbul/Turkey.
